

COVID-19 Travel Information

The global COVID-19 pandemic is unsettling, and our thoughts are with those who are affected by the virus and the uncertainty surrounding it.

The safety of our visitors, community and staff is Cambridge/Guernsey County Visitors & Convention Bureau's highest priority, and we are confident that area businesses that remain open are deploying the appropriate sanitation protocol. We encourage everyone to follow the health and safety precautions issued by the CDC to limit the spread of communicable illnesses and to make informed decisions as they go about their daily routine.

Right now, due to orders issued by the State of Ohio and a focus on health and safety in our community, some businesses are limiting their hours in Cambridge/Guernsey County. As of 9 pm on March 15, only carry-out and delivery is available from the restaurants that remain open.

Travelers are welcome should they decide that a visit to Cambridge/Guernsey County is desired and in their best interest. It is likely that visitors will experience disruption to their plans due to closures or event cancellation/postponement.

Beginning March 18, the Guernsey County Administration Building, where our Tourist Information Center and VCB offices are located, will only allow those who have appointments with offices in the building to enter. Rest assured though that the Cambridge/Guernsey County VCB staff is available to answer phone calls and e-mails Monday through Friday 8am-4pm. Please contact us by phone (800-933-5480 or 740-432-2022) or [e-mail](#).

With the situation evolving rapidly, we encourage visitors to consult the national and local health resources listed below as they prepare for travel, including the [CDC's guide to travel in the U.S.](#)
