Great American Steam Locomotive Museum & Cambridge Wooden Toy Company

www.cambridgewoodentoyco.com

For 39 years, Brian Gray has been making some of the best handmade wooden toys in Southeastern Ohio. He uses only select hardwoods for their beauty and all edges of the toys are rounded smooth. His toys are made strong so they can be handed down from one generation to another. He uses only child safe finishes. The museum has just added a complete N-Scale Train Layout which operates two Light Mountain 4-8-2's. One passenger train and one freight train both run at the same time for the young and young at heart who love model trains. Don't miss your chance at blowing a three tone steam whistle that came off a steam locomotive switch engine that used to operate in southeastern Ohio!
